

The Group List

729 Outpatient Therapy Groups and Support Groups
Offered By 301 Licensed Mental Health Professionals
Throughout Los Angeles County

September 2023

20th Anniversary Edition

All groups in this directory that are marked with the "*" symbol indicate they are available through an internet virtual video telehealth platform. Some of these groups may be offered as a "hybrid." Otherwise, groups are conducted in-person in an office setting.

Introduction

What is The Group List?

The Group List is a concise list of therapy groups in Los Angeles county, edited by a licensed psychologist. Listed groups are conducted in an outpatient setting, are under the direction of a licensed mental health professional, may be supportive, therapeutic, process, educational, or consultative, are either currently running or in wait-list formation, and may or may not be open to referrals at this time. For easy reference, the list is cross-indexed by group topic, city, and facilitator name. 300 licensed psychologists, clinical social workers, and marriage and family therapists offering 700 groups within Los Angeles County are included, making it the largest aggregation of groups in Los Angeles.

Permission to Copy

Permission is granted to the reader to copy and distribute this list as long as the list editor's contact information is not removed. This list is available via mail or via download from the internet. The directory has been viewed over 57,000 times at TheGroupList.org since first posted on the internet in 2003. We have received feedback from facilitators that The Group List generates qualified referrals to their practices. As a courtesy when contacting facilitators, please let them know where you learned about their groups.

Submissions

A free, community service, licensed mental health professionals may list their groups in The Group List whether currently running or in wait-list formation. Submit a brief description or title of each group (up to 40 characters and spaces), your name, degrees, license type & number, e-mail address, office address, and office phone. Only one line per therapy group is allowed in the directory. Each group must be listed under the name, degree, and license number of an independently licensed mental health professional. Groups by pre-licensed facilitators are welcome and must be listed under their licensed supervisor's name, degree, and license number. Groups cannot be listed under an organizational name only. Direct any submissions, inquiries, or corrections to and request updates of this list from the list editor. There is no cost to listees or prospective group participants for The Group List. The directory is updated annually: we confirm with all facilitators the accuracy of their listings.

Licensure Versus Certification

This directory is defined as a list of groups offered specifically and only by licensed mental health professionals or those they supervise. Music therapists, art therapists, movement therapists, drama therapists, drug and alcohol counselors, and life coaches may all be board certified but are not necessarily licensed by the state of California. Board certification certifies skill competency; state licensure authorizes independent practice. If you have a California state license to independently provide mental health services (LMFT, LCSW, LPCC, psychologist, or psychiatrist) or are supervised by a licensed mental health professional, then your services can be listed. Certification alone is not sufficient.

Advertising

Premium advertising is now available to mental health professionals through The Group List. Promote your professional services, therapy groups, workshops, upcoming events, office space available, conferences, or publications. Your flier or display ad can be inserted into all four of our online directories which are available as free downloads: *The Group List*, *The Assessment List*, *The Pediatric Psychiatrist List*, and *The East San Gabriel Valley Directory*. These directories have been accessed by hundreds of clinicians and potential clients through the websites JJDDeSantis.com and TheGroupList.org.

E-mail your flier or display ad to JJDDeSantis@aol.com and make your payment via paypal at JJDDeSantis.com or mail your check payable to James De Santis, Ph.D., Post Office Box 894, Glendora, CA 91741-0894. Each flier or display ad can be up to size 8.5x11 inches, one-sided. Submit in .pdf or .jpg format. One year of service per flier or display ad is \$50. An additional fee will be requested for paste-up services if advertising is submitted as unformatted text or if advertising is changed or revised by the customer during the service period.

Alternatively, we can produce single-use self-adhesive mailing labels or a multi-use digital file e-mailed to you to customize your own commercial mailings. We do not sell e-mail addresses. Details are posted at JJDDeSantis.com. Call for exact pricing.

Understanding and Acceptance

While the editor makes every effort to ensure the accuracy of information presented in this list, the user is cautioned that this list may include typographical errors and/or technical inaccuracies. Listings are subject to change without notification. This list is provided with the understanding that the editor is not engaged in rendering a professional service in the form of a recommendation or an endorsement. Groups have not been reviewed or evaluated. The editor does not represent or warrant that any specific group is appropriate for any specific individual or specific purpose. Groups are presumed to be either facilitated by or supervised by independently licensed mental health professionals; however, credentials have not been verified. While this directory is free, the services offered in this directory are generally not free. Internet links contained herein are provided for the convenience of the user; no approval or endorsement is implied, and links are opened at the user's risk. Use of this directory constitutes an understanding and acceptance of these conditions. [The Group List](#) is not affiliated with any other professional organization or association.

History

Group therapy is one of several psychological treatment modalities available. Some clinicians consider group therapy the treatment of choice for a number of psychosocial problems, yet most clinicians do not offer group therapy as a treatment modality in their practice. The process of making a referral to a group is often a time-consuming and difficult task. Locating an appropriate group can be quite difficult. [The Group List](#) began out of this need to connect prospective group therapy participants to appropriate therapy groups.

Typically for a clinician to find a group, they must place several phone calls or send several e-mails out to colleagues in the community, wait and collect the replies—most of which are suggestions for whom to call next. I had collected notes on about 50 therapy groups in my local area by means of this process. Colleagues started to request copies of my informal list. It seemed like if the list were of value to some, then others might want it as well.

A directory of therapy groups is necessary because one cannot easily find specific types of therapy groups through local professional associations or even through an internet search. Available websites are limited and hard to use when looking for therapy groups. The response has been almost uniformly positive.

So in 2003, we began to more formally publish a directory of licensed mental health professionals who actively facilitate outpatient groups or are attempting to start a group (via a waiting list) anywhere in Los Angeles county. We contacted over 1,000 therapists with professional interest in group work.

Our intent is to circulate [The Group List](#) to the community as widely as possible for purposes of effective cross-referral. The list is e-mailed periodically to the professional mental health community. The directory has drawn the attention of search engines Google, Yahoo!, and Bing.

Circulation

To promote the work of group therapists in Los Angeles county, we distribute the directory in several ways. Firstly, we distribute the directory by e-mail to approximately 8,000 mental health professionals. Secondly, the directory is distributed in print in small batches to mental health professionals and to other professionals, such as physicians, schools, and others who are likely to use the resource to make referrals. Over the years, hundreds of copies of the directory have been distributed in print. We provide the directory at periodic networking events that we sponsor for listees, where typically clinicians attend, introduce themselves to each other, and describe their groups. We provide paper copies of the directory at professional educational conferences, as well.

Additionally, because of our visibility in the community we receive frequent inquiries from prospective group therapy clients and will refer them either to the website or directly to therapists listed in the directory who facilitate groups that may be appropriate. We also monitor professional e-mail discussion groups and respond to postings requesting information about therapy groups. Lastly, the website we have created specifically for the directory allows both professionals and prospective clients to find and download the directory through search engines including Google, Yahoo, and Bing, among others. Depending on the keywords used, [TheGroupList.org](#) ranks well in organic searches for therapy groups.

What is a Certified Group Psychotherapist (CGP)?

Beyond their degree and license, some facilitators in this directory have an additional, national certification of their specialization in group therapy, which will be indicated by "C.G.P." after their name. "A Certified Group Psychotherapist (CGP) is a clinical mental health professional who meets nationally accepted criteria of education, training, and experience in group psychotherapy. A CGP is an expert in group psychotherapy and an ethical practitioner who is committed to group psychotherapy as an autonomous treatment modality." (American Group Psychotherapy Association)

The Editor

James J. De Santis, Ph.D., earned his bachelors degree in psychology from the University of Southern California, magna cum laude, Phi Beta Kappa, and his masters and doctoral degrees in psychology from the California School of Professional Psychology.

Dr. De Santis has been licensed as a psychologist for thirty years. He is a life issues consultant in full-time private practice via telehealth videoconferencing and works with adults offering assessment and treatment services.

Dr. De Santis is the current president of the Glendale Area Mental Health Professionals Association and the East San Gabriel Valley Mental Health Professionals Association. In 1998, he published, Start an interdisciplinary association: A successful practice development program for mental health professionals, an instructional manual about marketing. After starting "The Group List," in subsequent years he has added other directories, such as the The Assessment List, the largest resource in Los Angeles county of psychologists offering testing services. He has more recently published a second book in 2010, The business of practice: Building an optimal private practice for mental health professionals. Jim has offered a workshops on marketing for mental health professionals for many years and offers private individual consultation on practice development.

Editor's Note Regarding Accuracy and Completeness

This edition of The Group List is special. The editor has applied painstaking effort to personally assure continued confidence in the accuracy and currency of listings in the directory. We can only say that we have invested many, many hours vetting groups. Yet, we receive complaints with some regularity about difficulty in locating active groups from The Group List. Unlike other aspects of clinical practice, the turnover in group work is extraordinary. This means the current edition will always be outdated as soon as it is printed.

Despite the ubiquity of the internet, when it comes to directories of psychotherapy groups, there are not many alternatives available. Some have suggested a crowd-sourcing model as a solution, with listees entering their own information. This would be the model on which PsychologyToday.com's "Find A Therapist" directory is built. We have found this format has other shortcomings.

People criticize The Group List for including groups that "don't exist." Many groups that are advertised certainly never launch beyond a wait-list. We believe it is a valuable purpose of this directory to advertise groups that are in the formation stage. This is legitimately called "advertising."

To verify if what is in the directory is actually being offered, we send an e-mail, then a letter to those who don't respond to the e-mail, then leave a voicemail message for those who don't respond to the letter. With each volley of outreach, we only receive a 45-55% response rate. Ultimately, if the group leader has not personally replied in the affirmative, then their listing is deleted until they contact us and ask for reinstatement. We still cannot guarantee 100% accuracy.

From one vantage point, there are about 25,000 mental health professionals in LA county. We have found only about 300 of them who offer groups of any kind. So, The Group List has reduced the work for therapists and prospective group participants to find groups by 99.9%. Thus, we achieve a simple, basic goal with success. If the directory saves 99.9% of the work of locating group therapists, then The Group List has earned an A+. The result is the imperfect specimen you have before you.

You can help. If you find that a listing is out-of-date, please pass along your discovery to us. What you can do is not just let us know listings are incorrect, but tell us who the listee is by name and we will personally call them. In this way we will all benefit. And, please, don't let the perfect be the enemy of the good.

Editor's Note Regarding the Parameters of the Directory

We have been criticized for not providing more detailed information. Paradoxically, the more specificity we try to achieve, the worse the problem becomes. Groups can be defined based on 1. demography (age, race, language, gender), 2. diagnosis (mood, anxiety, attention, violence, trauma, addiction, etc.), 3. problem, topic, or focus (body image, divorce, stress, grief, etc.) 4. methodology (support, process, psychoeducational, consultative, short-term, open-ended, etc.), 5. theoretical orientation (psychodynamic, cognitive, Jungian, emotionally focused, Tibetan, Adlerian, DBT, etc.) 6. cost (including a range and fee adjustments), 7. third-party payors accepted, (various insurance companies, EAPs, etc.), 8. schedule (day, time, length), 9. channels for contact (phone, e-mail, website, office address). This amount of data would create an unwieldy grid.

We have been asked to include groups either based outside the county or offered virtually from outside the county. We would like to cite "the tragedy of the commons" regarding the "situation in economic science when individual users, who have open access to a resource unhampered by shared social structures or formal rules that govern access and use, act independently according to their own self-interest and, contrary to the common good of all users, cause depletion of the resource through their uncoordinated action." (Wikipedia.com)

Endorsements of The Group List from Mental Health Professionals in the Community

This has been such a tremendously important resource.

We SO appreciate your hard work on this. It's been invaluable especially through the pandemic.

Wow! You have put together a wealth of information that is not only comprehensive but very well-organized. I truly appreciate the information and will share it with our department.

THIS IS FABULOUS! This is an exceptional gift. The massive amount of work it must have taken is so very apparent. Thank you so very much.

This list looks and works awesome! Thank you for its ease of use!

What a time-saving blessing!

Brilliantly done resource that I can put to use immediately with some of my clients.

I love The Group List. Everybody I know does, too.

I just got a call today from someone who found me on your list!

I get a lot of calls from The Group List, which is just wonderful. My groups have reached their maximum. I so appreciate what you are doing.

People do find me through the directory. I not only receive referrals to my groups, but I love referencing it to make referrals to others.

I appreciate your service and all the people who have inquired about groups through your directory.

Just a quick note to express my sincere appreciation for the resource you have created and that my clients have enjoyed for so many years.

The Group List is a valuable resource and a generous act of service.

I truly appreciate this community service. It has been valuable to me as a group leader.

I feel honored to be part of such a great project!! You really have done a fantastic job for the community and for the therapists who serve!

I'm a big fan and often use the list when looking for resources for our clients in various locations.

I've used The Group List and have had some great results.

I for one, use your list to help find groups for those I see with issues other than what I treat, so I find it to be a great resource.

The Group List has been a dependable, reliable resource for all of us in the health community.

I can't tell you how often I send this list to other therapists looking for groups for their clients.

I have used the directory many times. It has been the best tool. I very much appreciate it!

I refer to your list on a weekly basis. I tell all my clients about it, too.

It is a powerful resource I send clients to every week!! Kudos!

I use The Group List, I refer both colleagues and patients to it, and it's WONDERFUL!

I love The Group List and share it with many! I have a psychiatrist friend who always checks it now.

I have told other clinicians about it, as well as parents, teachers, etc.

Thank you so much for making The Group List such an important part of the group [therapy] community. I mention it in every group class I teach.

Thank you again for your LEADERSHIP AND SUPPORT OF OUR PROFESSION. I truly appreciate your efforts to advance our services to the public, it means a lot to me and my patients and their families. Keep up the GREAT work.

Thank you for your significant contribution to our field with your directories

I just want to let you know I deeply appreciate your kindness and generosity. You are amazing and a gift to our community.

I found EXACTLY the skills-based executive functioning group for 15-19 year olds that I wanted to find for my own family member, in my area, with a professional I know and trust.

So incredibly helpful, that I found another group for another client on a different matter. So thank you, thank you. It's a great resource.

I found the perfect group for my family member, close by; it was like a little miracle.

I know the amount of labor that goes into this kind of project, and I so much appreciate that you have taken the time to put this together and to keep it as updated as possible. I don't run groups, but I often have been asked for referrals and am always so pleased to have your list at hand! So this is the personal "thank you" I've been wanting to send for the last few years!

It is often difficult to find a group therapy experience, so this is a valuable resource. I recently heard from Jim that he is verifying that all the groups listed are ongoing and currently operating--a huge telephone task--to be sure that the referrals are viable (unlike managed care/insurance panels that often include many therapists who are not taking new referrals, which sends the prospective client on a chase when he/she is most in need of immediate responses). That's just one example of the professional commitment and ethics with which he guides himself...

Information Submission Form

Los Angeles County-Wide Outpatient Group Therapy Directory

James J. De Santis, Ph.D., Editor, Post Office Box 894, Glendora, California 91740-0894
(818) 551-1714 JJDeSantis@aol.com www.TheGroupList.org

The Group List is a free, independent, comprehensive directory of 700 therapy groups offered by 300 licensed mental health professionals throughout Los Angeles county, edited by a licensed psychologist, first published in 2003. There is no cost to be listed or to obtain a copy of this directory; this is a free community service. We are celebrating our 20th anniversary.

Groups should be (1) in Los Angeles county, (2) in an outpatient setting, (3) under the direction of a licensed mental health professional, (4) either supportive, process, psychoeducational, or consultative, (5) either currently running or in wait-list formation.

Only one line per therapy group is allowed in the directory (up to 40 characters and spaces). Please use simple descriptive group titles; the topic index is alphabetical by first word. Groups can specify A) a demographic group (women, teens age 14-17, etc.), B) a diagnostic group (OCD, anxiety disorders, etc.), C) a problem or focus (trauma survivors, divorce recovery, etc.), or D) a methodology/ approach (CBT, Jungian, process, etc.). The directory itself offers many examples.

We cannot list detailed information regarding dates, times, or fees for groups. Each group must be listed under the name, degree, and license number of an independently licensed mental health professional. Groups by pre-licensed facilitators must be listed under their licensed supervisor's name, degree, and license number. Groups cannot be listed under an organizational name only.

While the editor makes every effort to ensure the accuracy of information presented in this directory, the user is cautioned that this directory may include typographical errors and/or technical inaccuracies. Listings are subject to change without notification. This directory is provided with the understanding that the editor is not engaged in rendering a professional service in the form of a recommendation or an endorsement. The editor does not represent or warrant that any specific group is appropriate for any specific individual or specific purpose. Groups are presumed to be either facilitated by or supervised by independently licensed mental health professionals; however, credentials have not been verified.

You may submit this form via US mail to the office address above or via e-mail as a scanned document to the e-mail address above.
